

# WA State needs better results, not bigger taxes.

With a smarter approach to spending, we all can win.

In Washington, we're known for our ingenuity and forward thinking.

Yet, we've doubled state spending and we're not seeing results.

Instead, we're facing:

- No improvement in homelessness prevention, affordable housing, public safety and education.
- Increased cost of living
- A \$12 billion budget deficit

By now, we know raising taxes isn't the answer. Because tax hikes drive up everyone's cost of living and put strain on our small businesses.

It's time for our legislature to tap into Washington's spirit of ingenuity to solve our state's most important issues.

We're all in this together. And we know we can do better.

So, let's act now to create a smarter approach to spending.
